Programs:

### Equipment Technology Consortium (ETC)

ETC is a short-term assistive device loan program for Missouri schools and agencies. A school or agency can borrow from a pool of over 900 devices including augmentative communication, computer access, environmental controls, hearing devices, telecommunications, visual aids, and learning aids. The program can be utilized free of charge. Equipment can be borrowed for up to six weeks for trial before making a purchasing decision, for use while equipment is in for repair, or for other short-term needs. For more information, please call (816) 655-6708 or review information at <http://at.mo.gov/device-loan/>

Telecommunications Access Program (TAP): <http://at.mo.gov/telecom-access-program/> For more info, contact (800) 647-8557 (voice) or (800) 647-8558 (tty).

**Telephone: TAP for Telephone** provides adaptive telephone equipment for Missourians with disabilities who have telephone service and who have difficulty using standard telephone equipment for voice calling. TAP-T provides adaptive equipment for all disabilities including text telephones and amplified telephones for hearing disabilities, hands free and remote controlled phones for mobility disabilities, voice dialing and Braille dial pads for vision disabilities, and photo phones for cognitive disabilities.

**Internet: The Telecommunication Access Program for Internet (TAP-I)** provides to Missourians with disabilities the adaptive computer equipment needed for basic access to the internet and email. TAP-I provides a range of adaptive equipment including screen reading, enlarging systems, refreshable Braille displays, adaptive software, alternative keyboards and pointing devices. Consumer support is provided throughout the state to assist applicants in determining the adaptive equipment they need and to provide training for consumers after equipment delivery.

### Deaf-Blind Equipment Distribution Program (iCanConnect):

<http://at.mo.gov/deaf-blind-equipment-distribution/>

iCanConnect is a program for individuals with both hearing and vision loss. The National Deaf-Blind Equipment Distribution Program (NDBEDP) is a direct result of the 21st Century Communications and Video Accessibility Act of 2010 and is funded by the FCC. The goal is to make sure that every person with combined hearing and vision loss has access to modern distance communication tools and the training necessary to use them. Missouri Assistive Technology (MoAT) is certified by the FCC to administer the project in the state of Missouri.

The program covers a variety of equipment based on the individual participant's distance communication needs. Individuals apply for technology such as an iPhone or iPad or computer with magnification software or a screen-reader. Other equipment may include a neckloop, Braille display, or large-print keyboard.

Contact Brenda with questions about the program, [brenda.whitlock@att.net](mailto:brenda.whitlock@att.net) or 816-655-6700.

Fax: (617) 923-8076  
<https://www.perkins.org/school/day-residential/deafblind>

The Deafblind Program is built on a tradition of success that began at Perkins as early as 1837 with the admission of Laura Bridgman, and later with Helen Keller in 1886 -- two of the first individuals who were deafblind to be formally educated. Today, our program continues to be one of the few worldwide dedicated specifically to working with students with deafblindness.

We offer comprehensive educational services to students age 3 to 22 who are deafblind or deaf with additional disabilities, taking a developmental approach to language, communication and curriculum. Many students also participate in our residential program, which enhances their overall educational experience and reinforces learning through consistency.
