

Missouri Deaf-Blind Technical Assistance Project (MoDBTAP)

Request for Technical Assistance

MoDBTAP provides two types of technical assistance: focused and comprehensive. A description of each is provided below.

Focused Technical Assistance

Focused technical assistance TA is delivered at a targeted/specific level and is based on the clearly-identified needs of family members, program/school staff, and/or administrators. Focused TA is short-term assistance designed to address a basic, single need or a small number of basic needs, and is delivered via distance technology. This level of TA emphasizes the efficacy of family/ professional partnerships in supporting child change and impacting systems.

Comprehensive Technical Assistance*

Comprehensive technical assistance TA is delivered at an intensive/sustained level and requires a stable, ongoing negotiated relationship between MoDBTAP staff and TA recipients. Comprehensive TA can be delivered onsite and/or through distance technology. It includes a purposeful, planned series of activities designed to reach outcomes that are valued by the individual recipients. Family members, program/school staff, and administrators must identify and agree to a set of technical assistance needs to be addressed as part of the TA process. This level of TA should result in changes to practices and/or operations that support increased recipient capacity and/or improved outcomes at one or more systems levels. Evaluation and continuous feedback are integral components of comprehensive TA.

Adapted from the U.S. Department of Education, Office of Special Education Program's definition of intensive/sustained technical assistance.

When completed, return this form to Missouri Deaf-Blind Technical Assistance Project

By email: <u>natasha.baebler@msb.dese.mo.gov</u>

School name:

Classroom setting (general education, special education, non-public, etc.)			
Name of classroom teacher:			
Name of one-on-one paraeducator/intervener if applicable:			
Local Education Agency that operates the program the child attends:			
Local Education Agency in which the child resides, if different from above:			

4. Information about the child's etiology/diagnosis:

What is the diagnosed etiology related to his/her deafblindness (e.g., CHARGE syndrome, complication of prematurity, CMV, Down syndrome, meningitis, etc.)?

Does the child have other disabilities in addition to her/his deafblindness?

5. Information about the child's vision:

Visual condition and/or diagnosis:

Does the child have functional vision? If so, describe what you think the child can see. Attach a recent eye report or functional vision assessment if available.)

Does the child wear glasses/contacts and/or use any assistive technology related to vision?

6. Information about the child's hearing:

Auditory condition and/or diagnosis:

Does the child have functional hearing? If so, describe what you think the child can hear. Attach a recent audiogram or functional hearing screening if available.

Does the child wear hearing aids? Cochlear implant? Other assistive listening devices?

7. Information about how the child communicates:

Describe the child's <u>receptive</u> communication mode(s). These might include gestures, American Sign Language (ASL), signed communication (i.e., single signs or signs used in English word order), symbols, voice output devices or tablets, speech, objects, etc.

Describe the child's <u>expressive</u> communication mode(s). These might include speech, American Sign Language (ASL), signed communication (i.e., single signs or signs used in English word order), voice output devices or tablets, symbols, objects, etc.

Does the child effectively communicate wants? Needs? Emotions?

What is the primary language used by others in the home?_____

8. General information about the child:

Describe the child's gross and fine motor abilities (e.g., walking, standing, crawling, grasping, etc.). Does the child use any adaptive equipment/devices to perform everyday activities?

Is there any additional information about the child that would be important for MoDBTAP staff to know?

Please select the top THREE areas	you would like to see addressed.
Understanding the impact of a combined vision and hearing loss on the child's learning and development (SP1).	Using effective strategies to improve the student's selfcare skills (SP10).
Using assessment strategies functional vision, functional hearing, etc. for program planning for the student (SP2). Developing an appropriate IFSP/IEP for a student with combined vision and hearing loss (SP3).	Using effective strategies to improve the cognitive development of the student (SP11). Using effective strategies to improve the student's academic and literacy skills (SP12). Using effective strategies to improve the student's social interaction skills (SP13).
Using effective teaming strategies with other educational professionals involved with the child with combined vision and hearing loss (SP4). Using effective instructional strategies to implement the IFSP/IEP (SP5). Using functional behavior analysis and positive behavior supports (SP6). Using effective strategies to improve the student's communication and language skills (SP7).	 Using effective strategies to improve the student's self determination (SP14). Using effective strategies to foster participation in play/recreation activities for the student (SP15). Using effective strategies to improve the student's community and independent living skills (SP16). Developing age-appropriate transition planning for the student with combined vision and hearing loss (SP17). Using strategies that improve the student's postsecondary transition outcomes (SP18).
Using effective strategies to improve motor development and positioning for the student (SP8).	Appropriately using assistive technology AT for a student with combined vision and hearing loss (SP19).
Using effective strategies to improve orientation and mobility for the student (SP9).	Developing pre-literacy/literacy skills for all learners (SP20).

RESULT OF TECHNICAL ASSISTANCE

As a result of the technical assistance, what we the top THF	•
Increased functional use of sensory systems (C1).	Improvement in student's cognitive skills (C8).
Increased engagement in intervention and/or instructional activities (C2).	Improvement in academic and/or literacy skills (C9).
	Increase in social interactions (C10).
Improvement in receptive communication and/or language (C3).	Increase in self-determination (C11).
Improvement in expressive communication and/or language (C4).	Increased participation in play and/ or recreation activities (C12).
Improvement in positioning and motor skills (C5).	Increased participation in community and independent living activities (C13).
Improvement in orientation and mobility skills (C6).	Increased participation in age- appropriate transition activities (C14).
Improvement in student's self-care skills (C7).	Increase in student's employment and/ or post-secondary education experiences (C15).

MoDBTAP staff members will require the following supporting documentation:

- IFSP or IEP
- Most recent vision report

- Triennial Evaluation
- Most recent audiological report
 - Functional vision or hearing reports

For **Focused TA** requests, this completes the application. For **Comprehensive TA** requests, complete the **Verification and Documentation** section below.

Verification and Documentation (to be completed for Comprehensive TA requests only) The following individuals are in agreement with the technical assistance needs described above.
